

To Whom It May Concern:

I request that the FCC not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

The Indiana's Telephone Privacy law has improved my time at home. I don't have to answer unnecessary calls from people and about products I don't know or want. If I can't buy it at a store I don't need solicitation on the telephone.

I use to receive on average 2 calls per night. We receive almost no calls from non-requested undesired vendors / telemarketers. Now if we could do something about SPAM email life would be even better.

At least Indiana has done something about those nagging telephone calls. Now we need to work on SPAM.

Thank you for your time.
